To Whom It May Concern:

Subject: Unique Antenna Connection Statement - FCC ID: 2ABHT2110010:

Please be advised that all standard electrical connectors on antennas will be made non-electrically standard according to the following steps:

1. Loctite 243 Threadlocking Adhesive or adhesive with equivalent or stronger strength will be used;
2. The adhesive will be applied to the antenna assemblies at the factory prior to shipment to guarantee a unique electrical connector;
3. Two commercially available antennas with N Type connectors will be modified via an Reverse Polarity TNC adaptor and using the adhesive outlined above to create unique connector antennas, details are:
 - a. Commercially available antenna with part number Solwise NET-WL-ANT-009NPLG becomes a unique connector antenna with part number SH-A-RTNC09O;
 - b. Commercially available antenna with part number Solwise NET-WL-ANT-015ON becomes a unique connector antenna with part number SH-A-RTNC15O;
4. Each of the two antennas mentioned above will have an option of a 1 meter extension cable which will be permanently attached to guarantee a unique electrical connector.
 - a. Commercially available antenna with part number Solwise NET-WL-ANT-009NPLG and 1 meter extension cable becomes a unique connector antenna with part number SH-A-RTNC09O1M;

T. +44 (0) 141 255 2930 hello@silentherdsman.com

- b. Commercially available antenna with part number Solwise NET-WL-ANT-015ON and 1 meter extension cable becomes a unique connector antenna with part number SH-A-RTNC15O1M;
5. Any additional antennas will be permanently attached with adhesive as to guarantee they have a unique electrical connector;

Thank you for your attention to this matter.

Kind regards,

Ivan Andonovic
